## REMARKS

In an Office Communication mailed June 8, 2006 Applicants were informed that a review of the file for this application "reveals that page is missing from the applicants' remark" in connection with an amendment filed July 9, 2002. Applicants were required to submit this missing page. No due date for the required correction was provided but Applicants are timely responding within one month.

By accessing the PAIR system Applicants determined that the missing scanned page is page 4. However, for completeness, Applicants are attaching all five pages of the communication.

Additionally, Applicants point out for the record that the amendment in question was timely submitted by the Certificate of Mailing process on June 27, 2002 with a requested one month extension and appropriate fee. The entrance of the amendment by USPTO personnel on July 9, 2002 did not reflect the accurate amendment filing date to be accorded to Applicants for fee purposes.

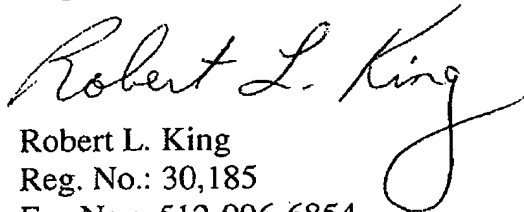

With the attached submission of the requested missing page, Applicants have fully complied with the request. Applicants accordingly request confirmation that the required correction has been satisfactorily met.

Should any issue related to the allowance of the application exist that might be subject to resolution through a telephonic interview, the Examiner is requested to telephone the undersigned at (512) 996-6839.

Respectfully submitted,
